

DD/S 71-1645

3 MAY 1971

MEMORANDUM FOR: Director of Security

Howard:

This is to note for your tickler file and mine our discussion the other day regarding Project [REDACTED] and the desirability of a dry run and your proposals for enlisting an alertness on the part of all the Building inhabitants to "strange packages". Do you think it might be worthwhile to consider an article in the Support Bulletin?
